The Mass Choir Ensemble of the Second Baptist Church - Southside was formed as a matter of necessity after the Covid pandemic impacted the abilities of the church's music ministries to provide service to the in person church congregation. During the pandemic, choir members used electronic means to deliver music virtually to the congregation unable to worship in person. Post-pandemic, the singers today have come from the various choirs and the members-at-large, who have banded together their God-given talents of praise through song. Some of the members have been involved with music ministry for as little as a few years to periods as great as more than 50 years. They have a unique ability to blend their talents in an effort to praise God to the highest.

A free-will offering will be taken at the performance.
